

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Robert Bedgood on November 18, 2010.

The application has been amended as follows:

In the specification:

On page 6, the paragraph spanning lines 21-34 has been replaced as follows:

“These objects, and additional objects which are not specified in detail but which ensue in an obvious manner from the prior art, are achieved by the specification of specific primer constituents and their use in a process as described herein. An embodiment is drawn to a protein sequence which is required for constructing the activity of a nitrile hydratase, whereas another embodiment is drawn to a nucleic acid encoding said protein, and further, whereas another embodiment is drawn to an expression system which exhibits said nucleic acid sequence. The invention also deals with novel nitrile hydratases which have been prepared in accordance with the invention as well as their specific uses.”
